Rimrock Guest Cabin

This cabin designed by: Zirnhelt Timber Frames

At a Glance:

Main (16' x 20') 320 sq ft

A small timber frame guest cabin can be an effective way of accommodating friends and relatives over the holidays. This approach can help minimize the foot print when designing your home and is often easier than an addition if you have an existing home

Call or email us today to design your guest cabin. We look forward to working with you!
