Bedrooms	2-3
Bathrooms	2-3

GARAGE/GUEST SUITE

Garage 26'x 26'	676 sq ft
Suite 20' x 22'	572 sq ft

This home plan designed by: Harrison Design and Zirnhelt Timber Frames

This plan was developed from the “Lakeside Retirement” plan. Both plans have very similar floor plans and living space. The garage/guest suite building is identical. The Big Lake home has no dormers. This greatly reduces the cost of the timber frame and all of the finishing stages (framing, roofing, doors & windows) while still taking in the full view of the lake and retaining the exposed timber ceilings throughout the home. The timber roof system opens up immediately when you enter due to the vaulted entry. The $\frac{3}{4}$ loft still gives the high vaulted timber frame feeling in the great room while achieving some extra space upstairs. All of the entries are well protected from snow and rain. The side deck running from front to back provides some relief from the afternoon summer sun (west) and a convenient access to summer barbeques on the front deck (without having to go through the house).

Call or email us to start your sustainable building project. Visit our site, meet our crew and tour a Zirnhelt Timber Frame home.

We look forward to working with you!
